

## Pow-R-Jet 6309

The Fogmaster Pow-R-Jet® 6309 features automatic dispersion in an easy, one-step operation. Liquid is discharged at about 10 oz/min as a heavy, wet fog that settles quickly. An optional flow restriction orifice allows the fogger to operate at a lower (but still fixed) flow rate in order to produce finer droplets.

The Pow-R-Jet is ideal for increasing humidity and dispensing sanitizers. The durable aluminium body is constructed to resist weathering and chemicals. Both water- and oil-based solutions can be misted through the no-clog nozzle.

For a performance leader, Pow-R-Jet foggers remain the dependable, affordable way to fog. And it's compatible with our timers and turntables to make your fogging job even easier.

### SPECIFICATIONS

<b>Motor</b>	1 Hp, 120VAC 50/60Hz, 7 amp Optional: 240V, 3.5 amp
<b>Fogging Nozzle</b>	High-shear, counter-rotating vortex design
<b>Particle Size</b>	30 micron VMD (heavy wet fog)
<b>Chemicals</b>	Water- and oil-based solutions
<b>Liquid Flow Rate</b>	10 oz/min [300 ml/min], not adjustable
<b>Tank Capacity</b>	1 gallon [4 liters]
<b>Materials of Construction</b>	Power head housing and tank - aluminum Tubing - fuel and oil resistant vinyl Fittings - brass Nozzle - Celcon
<b>Options</b>	<input type="checkbox"/> Flow restriction orifice <input type="checkbox"/> Stainless steel fittings <input type="checkbox"/> Tank with float valve (brass; 1/4" compression fitting)
<b>Dimensions</b>	H x L x Dia: 15.4 x 10.4 x 8.6 in [39 x 26 x 22 cm]
<b>Shipping Weight</b>	12 pounds [6 kg]
