

FOG MACHINE ID-600A.

FEATURES

Cordless and portable

Long working hours

Long injection spraying range

Stepless speed regulation

Adjust the regulating valve to control the particle size, according to actual needs

Easy-to-use handle switch

Strong air supply, rapid diffusion, stable atomization

First, low sound, reducing work noise, silently moisturizing

Second, the capacity is six liters.

Third, the material is hard, using engineering materials to extend service life,

Fourth, anti-fall and wear-resistant,

large amount of fog,

ESPECIFICATIONS

Electric ULV cold fogger machine

Power: AC 220V50Hz optional

Rated power: 800W

Medicine box capacity: 6 Litres

Atomization Volume:400 ml/min (Adjustable)

Fog particle size:5-150um

Spray range: 6~8 meters

Rpm:32,000 rpm

Gross Weight:5.2kgs

Packing size:46*28*32CM
